## Metro Area: Construction Completion Update

*Improving the outdoor experience, one project at a time*

Over the past few years, cyclists have endured many construction projects around the metro area. Finally, we are happy to report that many of the projects have been completed.

It took three times as long to build, and cost twice as much as expected, but Shoemaker Plaza at Confluence Park is finally open. Gone are the plaza's complicated

zigzag ramps. Although it doesn't look tremendously different from its original design, the renovations offer greater and safer access to the water and separate, wider pedestrian and bike access to the trail.

Another project that has come to completion is the US 6 and 19th Street Interchange (Linking Lookout Project) which opened in Golden a

## Board Meetings

Any member wishing to attend a board meeting is welcome. The DBTC board meets the second Monday of each month at 6 p.m. at Perkin's Restaurant (1995 S. Colorado Blvd., Denver). If you wish to address the board, contact the president at [president@dbtc.org](mailto:president@dbtc.org) or call 303-725-1565 so that your topic can be placed on the agenda.

What I like about the Denver Bicycle Touring Club is not the variety of rides, but the people who are members!

By enjoying one of our many rides, you have the opportunity to meet fellow enthusiasts. This interaction encourages friendships that grow outside weekly rides. In fact as I write this, I am returning from a three-day trip to Grand Junction with two friends, Sunnye Kelley and Scott MacCormack, who I met through DBTC rides. And yes, we experienced some great rides – look for an Out-of-Town Tour next fall to western Colorado and its giant playground for both road and mountain bikes!

Without ride leaders our club would not exist. A big thank you to our volunteer ride leaders who take the time to identify fun and/or challenging rides for members. And then there are those leaders who create rides based on various themes: art, juggling, cemeteries, breweries and more!

Come join us on Saturday, November 11 to recognize our volunteer ride leaders as well as other volunteers who help make DBTC so special.

See you then!

few weeks ago.

It is a beautiful and user-friendly path between downtown Golden and the communities at the base of Lookout Mountain. It "links" Golden to Lookout to help bikers, pedestrians and cars cross over US 6 safely without hindering the flow of traffic.

The Peaks to Plains Trail, a key future state-wide connection, gained another three quarters of a mile. This section adds more to the popular trail, which will eventually span the entirety of Clear Creek Canyon Park. In addition to the new trail segment, a developed recreation area and trailhead opened to the

public in the part of the canyon known as "The Big Easy."

The trailhead and recreation area has a restroom, boasts 54 parking spaces, fishing platforms over the water for easy access, picnic pavilions, a geology garden, and a boardwalk in areas where vegetation needs to be protected. A new bridge

also spans the creek, leading onto the Peaks to Plains Trail, which connects to the Mayhem Gulch trailhead heading westward up the canyon. Also, a bike fix-it station is now available at the Mayhem Gulch trailhead. Finally, a picnic area,

restroom and parking lot opened earlier this year on the Cherry Creek Trail at Araphoe. There's also a bike fix-it station for those who need to fix flats, add air or make minor repairs.

Cyclists and every kind of outdoor enthusiast can be thankful for the completion of these projects, as they only make getting outdoors that much easier and enjoyable for everyone!

## Mountain Biking with DBTC

Currently, the DBTC does not have an MTB ride coordinator despite the fact that there is a very active mountain bike group within the club. The MTB group uses Yahoo to coordinate impromptu rides. If you are a MTB rider and would like more information about upcoming rides, it is easy to join the Yahoo group and keep up to date with emails about rides and trips. The group is very active during the winter months riding on nice days at nearby foothills trails. # October Riders

DBTC Ride Leaders and cyclists made it out to enjoy some of the beautiful scenery and sunshine in the Denver area. Here are some of the images we captured on those rides. If you are interested in joining us on one of our group led rides, check out the upcoming ride list starting on page 13. Hope to see you at a ride soon!

*On Sunday, October 15th, three riders enjoyed the Westminster Classic through the trails of Westminster, Northglenn and Thornton. Shown here at the E B Rains Jr. Memorial Park Lake.*

*This lady has a dog that looks just like Jeff's!!!*

*On Sunday, October 1st, the weather was threatening on the morning of the Tour De Boulder but two riders persevered!!!*

*On Sunday, October 8th, five riders checked out the Hidden Gems of Arvada shown here at the Lake Arbor Break.*

**Ride Leaders:** Remember, if you have a guest/non-member on any of your rides, the Membership Committee needs to know so we can invite them to join us on future rides as a NEW (or renewing) MEMBER! Please photocopy your Sign-in Sheet and email a scan of it to Lin Hark at: [guestrelations@dbtc.org](mailto:guestrelations@dbtc.org). Thanks for helping us grow our Club!

# Metric Century Rides

At the recent second annual Metric Century Ride, the wind had the potential to wreck the rides. Wind makes cycling colder and zaps energy as well as slows a rider to a crawl.

But more than 50 DBTC cyclists punched back and completed their rides. They then got their reward: a picnic lunch that included pumpkin pie and apple cider! A perfect ending.

Thank you to event organizer Linda Wheeler and ride leaders Jeff Krinsky, Jill McMahon and John Klever.

For your next windy ride, consider gearing down and taking it easy. Riding into a constant headwind is like riding up a hill. Also, it helps to ride in the drops as it improves aerodynamics.

# A New Day at Confluence Park

**New and Improved:** The Shoemaker Plaza at Confluence Park was officially reopened on October 12th, 2017. The area now offers easier and safer access to the waterway, as well as updated walking and bike paths for everyone to enjoy! The DBTC has several rides that originate from the flagship REI store, located a short distance from Confluence Park. Be sure to take time to check out the new area the next time you come along for a ride. The improvements completed so far by the city of Denver, known as the *River Vision* project, will continue its 8 year, \$50 million dollar renovation of the greenways along the South Platte for several more years to come. The project is estimated to be complete in the year 2020.

# Send A Teacher Traveling!

Every year, since 1996, ExperiencePlus! Bicycle Tours has offered the Send A Teacher Traveling (S.A.T.T.) Award, designed to recognize outstanding public school teachers throughout the United States. They believe that public school teachers (K-12) are the nation's most important human resource. They further believe that by encouraging teachers to participate in educational, active travel opportunities, countless students who come into contact with those teachers will benefit.

Monica and Maria Elena, current owners of ExperiencePlus! Bicycle Tours, are excited to offer such a great program. Since the program began in 1996, they have been able to send teachers on over 25 free bicycle tours across Europe and Latin America. This year, Monica and Maria Elena, along with their parents and founders of the company, Rick and Paola Malpezzi-Price, will be picking the winner for the upcoming 2018 ride.

If you know a teacher who might be interested in applying for 2018, follow the link to their website below to register.

You are invited to a special one night only screening of Phil Keoghan's (The Amazing Race) documentary Le Ride!

LE RIDE follows Phil Keoghan and his friend Ben Cornell as they attempt to recreate the original route of the 1928 Tour de France. Averaging 240 kilometres a day for 26 days, Phil and Ben traverse both the unforgiving mountains of the Pyrenees and the Alps, on original vintage steel racing bikes with no gears and marginal brakes. The documentary takes inspiration from the remarkable true story of Australians Sir Hubert Opperman, Ernie Bainbridge and Percy Osborne, and New Zealander Harry Watson as the first English speaking team to compete in the Tour de France. They arrived after six weeks at sea, under-trained and under-resourced, untested and completely written off by the French media. The 1928 Tour was the toughest in history – a hell on wheels race of attrition. Only 41 finished out of 161 starters yet remarkably three were from the Australasian team. This extraordinary story of achievement against the odds has never been told on film – until now.

# THE BICYCLING SEASON ISN'T OVER 'TIL YOU RIDE YOUR AGE IN MILES!

For the past 14 years Lin Hark has ridden her age in miles on or near her birthday in November. It has become a tradition for Lin to lead one or more rides and invite DBTC members to join her. Her daughter and grandkids have followed this tradition in recent years as well, and there may be some new faces joining this year.

For the past several seasons she has done a very well attended ride (depending on the weather) beginning at the Downtown REI at 11:00 am on the first Saturday in November. This is the last day before the time changes back to Standard Mountain Time. All members are welcome to join the fun, even if they don't ride, for the lunch on the deck by Starbucks at REI (bring or buy your own).

There are rides before and after for the hardier riders who are prepared for the colder temperatures early and late. Riders often ride to and from the 11am ride and calculate their own desired mileage. See the November ride schedule for details.

We look forward to having your join in to ride your age in miles!

# FOR THOSE WHO ONLY DRINK BEER ON DAYS THAT END IN *y*

by Ellen Chilikas

Brewery rides have ended for the season, but brewery visits will continue during the upcoming colder months. This summer and fall, I led brewery rides to the following breweries: Halfpenny, Grist, Breckenridge, Landlocked Ales, Locavore, Boggy Draw and St Patrick's.

With winter upon us and the weather getting colder, I will offer visits to breweries and tap rooms that are accessible via light rail. If you wish, you can still ride your bike to these breweries or you can just hop on the train and walk a bit for your brew. I am eyeing both Declaration and Renegade brewery visits coming up in November. I will post the dates and details on the Colorado Bicyclist and MeetUp sites. Also, check out the DBTC social media outlets for updates on times, dates, and locations! Looking forward to seeing you there and enjoying a cold brew.

## Mountain Bike Ride

*South Table Mountain, Golden*

We had a great turnout for the ride up South Table Mountain. Fourteen riders in total made the trip. The group is pictured on top of the mesa, which once was the home of a restaurant.

### **History of South Table Mountain:**

In times far past, South Table Mountain was ascended and used by American Indian tribes of the region, and archaeological remains are known to exist on its top. A piece of grape shot thought to be from either Spanish explorers or fur traders was found by Arthur Lakes on the mesa top in April 1895. The earliest recorded ascents of the mesa occurred during the Colorado Gold Rush in 1859. In 1906 father and son William H. and Clyde L. Ashworth built the original Castle Rock Resort, a cafe atop Castle Rock, where visitors were taken by burro up a trail up the north flank of Castle Rock. From Wikipedia, the free encyclopedia

## **Dick Shelton**

I discovered the physical and mental satisfaction of recreational cycling after moving to Colorado in 2004 and enjoy sharing knowledge of new trails and advocating for continued expansion of both the on-street and multi-use trail system. For the past 6 years I have been an Aurora Trail Steward helping to maintain safe and attractive open-space facilities.

I have served on the Board as Secretary for the last two years and look forward to continuing that role using my knowledge, experience and energy to provide positive cycling experiences for fellow club members.

## **Cyndy Klepinger**

I am running for the Board again to continue to bring some fresh ideas and perspectives to the best biking club in the Denver area. I enjoy contributing to the success of DBTC not only as member of the Board, but as a ride leader. Over the past several years as a club member, I have enjoyed meeting new people, creating friendships and becoming a better rider. And I would like to share my enthusiasm for riding with others.

## **Sunnys Keeley**

I moved to Denver about a year ago. One of my first objectives was to join DBTC, a bike club that offers a wide range of activities and many potential friends with a similar passion for riding. Not only do I enjoy the organized rides and events, but I'd also enjoy contributing my services to a worthy club. I'd like the opportunity to give as well as receive the benefits of DBTC.

## **Phil Gee**

Retired, currently volunteering as a bicycle mechanic at "Bikes Together" since they opened 10 years ago. I have also worked as a mechanic for a bike shop after college. For the last three years, I have been a member of DBTC. I also enjoy skiing and hiking and have been a member of the Colorado Mountain Club for the last 20 years. I Hope to be able to contribute my time and knowledge to DBTC as a board member.

## **Linda Wheeler**

I have served on the board three years and have enjoyed being "social events coordinator" for the club. I am a retired, but working, middle school science teacher who enjoys biking for the outdoor experience and exercise. Bike tours are my favorite. The friends I have met through DBTC are icing on the cake.

## Proposal to amend DBTC Bylaws

At the DBTC Board meeting in August the following amendment to our Bylaws was proposed:

### ARTICLE IX - FINANCES

Section 3. Authorized Signatures. The board shall authorize **up to** four of its members to sign checks. ~~All checks in an amount greater than \$300.00 will require two signatures.~~ **The president may utilize a debit card to conduct routine business transactions subject to monthly review by the treasurer.**

Added language is in **bold type**, deleted language is struck through.

#### Discussion:

The 2017 annual audit pointed out one area where current business processes do not conform to existing bylaws; this update is to correct that problem.

In practice only two board members, the president and treasurer, have signatures on file for the checking and savings accounts and only they possess blank checks. The language change moves away from a mandate of four board members that is impractical and unnecessary but retains flexibility to add more if needed.

Also, it is impractical and unnecessary to require two check signatures and this requirement has not been followed in recent memory. Approximately 70 checks are written annually and less than 20% exceed \$300 and are always for expenses authorized by the board.

Lastly, modern checking accounts include a debit card function that facilitates routine business transactions and the board has entrusted this function to the president. There are approximately 5 debit transactions per month and the treasurer always reconciles them in his report to the board.

The Board unanimously approved this amendment and recommends members also approve it at the VRL on November 11th. Please direct questions or comments to Dick Shelton, Board Secretary, at richardmshelton@aol.com.
